

## **SCHOOL ATTENDANCE AREAS**

The New Berlin School Board has designated attendance areas for each elementary, middle and high school in the District. In order to continue making wise educational and economically efficient use of classrooms, the School Board may, from time to time, consider changes in attendance area boundaries as recommended by the superintendent. Recommendations by the School Board for changes in attendance area boundaries shall be approved by the Board only after parents of students affected by those changes have had an opportunity to be heard.

Students may attend the schools for the attendance areas in which they reside or may request assignment in another school, subject to administrative approval according to Board procedures.

The Board directs the superintendent and/or designee to develop procedures, timelines, forms and procedures for student assignment to schools other than their designated attendance area.
