School District of New Berlin
New Berlin, Wisconsin

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the School District of New Berlin, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amount and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the School District of New Berlin as of June 30, 2016, and the respective changes in financial position, where applicable, and the respective budgetary comparisons for the General Fund, Special Education Fund and Community Service Fund, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and Schedule of Funding Progress for Postemployment Benefit Plan, Schedule of Proportionate Share of the Net Pension Liability (Asset) Wisconsin Retirement System and Schedule of Contributions Wisconsin Retirement System, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The financial information listed in the table of contents as supplemental financial information; and the schedules of expenditures of federal awards and state awards, as required by the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and by the Wisconsin Department of Administration; are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplemental financial information and schedules of expenditures of federal awards and state awards are the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental financial information and the schedules of expenditures of federal awards and state awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our reports dated February 24, 2017 on our consideration of the School District of New Berlin's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of the audit.

MANAGEMENT'S DISCUSSION AND ANALYSIS

**School District of New Berlin
Management's Discussion and Analysis
For the Year Ended June 30, 2016**

The School District of New Berlin is a public-school district operating kindergarten through grade 12th and limited community programs in accordance with laws and regulations of the State of Wisconsin. Laws and regulations determine the way compliance will be demonstrated, including financial report preparation. This management's discussion and analysis of financial information is an overview of financial activity and identification of changes in financial position comparing current year financial results to the prior year.

OVERVIEW OF THE FINANCIAL STATEMENTS

The district's basic financial statements are prepared from a dual perspective:

- 1) To report the district's overall financial operations with a focus on financial position and
- 2) To provide information on specific governmental activities and to demonstrate compliance with regulatory requirements for segregation of assets.

In addition to individual financial statements, the district prepares *notes to the financial statements* to provide further explanation of financial information that is essential to the full understanding of the those statements.

The district prepares financial statements in conformity with generally accepted accounting principles following pronouncements of the Governmental Accounting Standards Board. Financial statements are audited each year by an independent certified public accountant.

FINANCIAL ANALYSIS

The District as a Whole

The *statement of net position* reports all assets and liabilities, with the difference between the two reported as *net position*. These statements are prepared under the accrual basis of accounting whereby revenues and assets are recognized when earned and liabilities are recognized when goods or services are provided, regardless of when cash is exchanged.

As shown in the Condensed Statement of Net Position below, the district's net position decreased about \$3.6 million, primarily as a result the district's share of a multi-employer shared pension liability, the Wisconsin Retirement System.

**School District of New Berlin
Management's Discussion and Analysis
For the Year Ended June 30, 2016**

Condensed Statement of Net Position <i>(in thousands of dollars)</i>			
	Governmental Activities		%
	<u>2016</u>	<u>2015</u>	Change 2015 - 2016
Current assets	\$ 20,417	\$ 25,042	-18.5%
Net capital assets	63,549	58,889	7.9%
Other long-term assets/deferred outflows	17,128	9,941	72.3%
Total assets/deferred outflows	<u>101,094</u>	<u>93,873</u>	7.7%
Long-term debt outstanding	55,334	53,412	3.6%
Other liabilities/deferred inflows	13,968	5,076	175.2%
Total liabilities/deferred inflows	<u>69,302</u>	<u>58,488</u>	18.5%
Net investment in capital assets	30,823	18,164	69.7%
Restricted net position	21,639	13,835	56.4%
Unrestricted net position	(20,670)	3,385	-710.7%
Total net position	<u>31,792</u>	<u>35,384</u>	-10.2%

Note: totals may not add due to rounding.

The district's investment in capital assets (land, buildings, and equipment), less related outstanding debt used to acquire those assets, represents 97% of total net position. Assets held for repayment of debt, by the State of Wisconsin for pension, for completion of capital projects or revenues raised for specific purposes account for 32% of total net position, resulting in a negative unrestricted net position. These assets are restricted for.

Repayment of debt	\$ 1,130
Pension (WRS)	15,165
Capital projects	3,392
Community services	321
School nutrition services	1,045
Special revenue trust	587
Total restricted assets	<u>\$ 21,639</u>

The *statement of activities* reports the revenues earned and expenses incurred during the year and shows how the district's net position changed. The following condensed statement shows that net position decreased \$3.6 million following a \$4.4 million increase in 2015.

<i>Note: totals may not add due to rounding.</i>			

The district relies primarily on property taxes and general state aid. School funding regulations restrict the amount by which these two revenue sources, in combination, may be increased. This restriction, called revenue limits, is intended to help hold down the rate of property tax increases throughout the state.

General state aid is paid per a formula that takes into consideration the district's spending and property values as compared to spending and property values for the state as a whole.

The following chart illustrates the relative proportion of revenues that provide funding for governmental activities reported in the accompanying statement of activities.

**School District of New Berlin
Management's Discussion and Analysis
For the Year Ended June 30, 2016**

Revenues by Category

Expenses for the direct instruction of pupils accounts for the largest single category, followed by facilities and transportation as shown in the following chart.

Expenses by Category

Management's Discussion and Analysis
For the Year Ended June 30, 2016**

Fund financial statements

Fund financial statements are prepared on a modified accrual basis of accounting and are designed to demonstrate regulatory compliance and report limitation and restrictions on district assets. Funds are classified as either major or minor depending on the amount of financial activity as compared to financial activity for the district as a whole. Major funds are presented separately on both the *balance sheet* and the *statement of revenues, expenditures and changes in fund balance* whereas non-major funds are combined into a single, aggregated column. Information for each individual non-major fund is provided separately as supplementary information. Fund statements have the following characteristics.

- A fund is a grouping of related accounts that is used to maintain control over resources that are segregated for specific activities and to demonstrate compliance with finance related legal requirements. Fund statements generally provide information that may be useful in evaluating a district's near-term financing requirements.
- Generally, the focus of fund financial statements is narrower than that of the government-wide statements reporting on inflows and outflows of spendable resources.
- The district has two kinds of funds: *governmental* and *fiduciary*. *Governmental funds* include the general, special revenue trust, debt service, capital projects, food service and community service. The district has one *fiduciary fund*, an agency fund for student and parent organizations.
- The district serves as a trustee, or *fiduciary*, for student and parent organizations. The assets of these organizations do not directly benefit nor are under the direct control of the district. The district's responsibility is limited to ensuring the assets reported in these funds are used only for their intended purposes. *Fiduciary* activities are excluded from the government-wide financial statements because the district cannot use these assets to finance its operations.
- The district adopts an annual appropriation budget for the general fund. Although special education activities are reported in the general fund, the district prepares a separate budgetary comparison statement in compliance with regulatory requirements.

Governmental Funds

The district completed the year with a total governmental fund balance of \$15.9 million including \$3.4 million reserved for future capital projects.

- The general fund balance decreased \$5.3 million in accordance with the district's plan to use accumulated funds to complete several facility maintenance and remodeling projects.
- The fund balance for future capital projects are expected to be exhausted in the subsequent year as those projects are completed.

Budgetary highlights. In the general fund:

- The budget for regular operations anticipated a \$5.2 million reduction in fund balance, the actual results was a \$5.3 million reduction.
- Total expenditures for special education was about \$187,000 less than budget due primarily to savings achieved by providing services to students within the district rather than making tuition payments.

**School District of New Berlin
Management's Discussion and Analysis
For the Year Ended June 30, 2016**

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of the fiscal year, the district had invested over \$95.3 million in a broad range of capital assets, including buildings, sites, and equipment, an increase of \$7 million over the prior year. Total accumulated depreciation on these assets is \$31.8 million, including depreciation expense in the current year of \$2.4 million.

Long-Term Debt

At year-end, the district had \$55.3 million in general obligation debt outstanding. Significant activity for the year included:

- Retired \$1.6 million of bonds, notes and capital leases.
- Refinanced \$4.9 million for a present value savings of \$304,000
- Borrowed \$5.1 million to complete additional energy and operational savings projects, including adding air conditioning at 2 elementary schools.

The district long-term debt is considered "investment grade, based on its credit rating of Aa1 from Moody's Investor Services.

FACTORS BEARING ON THE DISTRICT'S FUTURE

Currently known circumstances that will impact the district's financial status in the future are:

1. The budget for the fiscal year ended June 30, 2017 anticipates a further reduction of the general fund balance of nearly \$1.7 million to finalize several facility maintenance and remodeling projects.
2. Facility maintenance and remodeling projects approved by a prior school board will not be completed due to cost increases on completed projects exhausting available resources.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is prepared to provide a general overview of the district's finances and to demonstrate the district's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Roger J Dickson, Chief Finance and Operations Officer at School District of New Berlin, 4333 S Sunnyslope Rd, New Berlin, WI, 53151 or call 262-789-6210.

**SCHOOL DISTRICT OF NEW BERLIN
RECONCILIATION OF STATEMENT OF REVENUES,
EXPENDITURES AND CHANGES IN FUND BALANCES
OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
For the Year Ended June 30, 2016**

Net change in fund balance - total governmental funds \$ (4,573,016)

**Amounts reported for governmental activities in the Statement of Activities
are different because:**

The acquisition of capital assets are reported in the governmental funds as expenditures but are reported as an increase of assets in the Statement of Net Position. The value of the assets is allocated over their estimated useful lives as annual depreciation expense in the Statement of Activities:

Capital outlay reported as expenditures in governmental fund statements	7,145,146	
Proceeds from sale of capital assets reported as other financing sources in governmental fund statements	(295,315)	
Gain (loss) on disposal of assets, reported as a general revenue in the Statement of Activities	255,284	
Depreciation expense reported in the Statement of Activities	<u>(2,445,865)</u>	4,659,250

Payments on behalf of retirees for post-employment benefits (OPEB) are recorded on a pay-as-you-go basis in the fund statements. In the Statement of Activities, OPEB is reported on the accrual basis based on an actuarial valuation:

The amount of contributions reported as an expenditure on fund statements	1,552,184	
The amount of OPEB expense reported on Statement of Activities	<u>(1,604,153)</u>	(51,969)

Contributions to the cost-sharing, multiple-employer defined benefit pension plan are recorded as expenditures in governmental fund statements when made. In the Statement of Activities pension expenses are recognized on an accrual basis:

Pension expense reported on Statement of Activities	(3,412,713)	
Contributions and changes in deferred inflows	<u>1,697,315</u>	(1,715,398)

Repayment of principal on long-term debt is reported in the governmental funds as an expenditure, but is reported as a reduction in long-term debt in the Statement of Net Position. Proceeds from long-term debt is reported as other financing sources in the governmental funds but as an increase in long-term debt in the Statement of Net Position. Changes in principal outstanding are not reported on the Statement of Activities.

The amount of long-term debt proceeds in the current year	(10,448,998)	
The amount of long-term debt principal payments in the current year	<u>8,731,332</u>	(1,717,666)

Costs of issuance for long-term obligations are an expenditure in the governmental funds but are capitalized and amortized over the life of the debt in the Statement of Activities. Deferred finance premium is income in the governmental funds but is recorded as unearned income and amortized in the Statement of Activities.

Premium on debt issuance	(223,748)	
Less finance premium recognized this year	<u>35,827</u>	(187,921)

Accrued employee leave benefits are not recorded in the governmental funds but are recognized as an expense in the Statement of Activities.

Vested employee benefits		(16,714)
--------------------------	--	----------

In governmental funds interest payments on outstanding long-term debt are reported as an expenditure when paid. In the Statement of Activities interest is reported as incurred.

The amount of interest accrued during the current period is:	(456,247)	
The amount of interest accrued during the prior period was:	<u>467,103</u>	10,856

Change in net position - governmental activities **\$ (3,592,578)**

NOTES TO THE BASIC FINANCIAL STATEMENTS

SCHOOL DISTRICT OF NEW BERLIN
NOTES TO THE BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2016

Note 1 – Summary of Significant Accounting Policies

The financial statements of the School District of New Berlin (the "District") have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting principles and policies utilized by the District are described below.

Reporting Entity

The School District of New Berlin is organized as a common school district governed by an elected seven-member school board. The District operates grades pre-kindergarten through grade 12 and is comprised of one taxing District.

The accompanying financial statements present the activities of the District. The District is not a component unit of another reporting entity nor does it have any component units.

The financial reporting entity consists of (a) organizations for which the standalone government is financially accountable and (b) the standalone government that is controlled by a separately elected governing body that is legally and fiscally independent. All of the accounts of the District comprise the standalone government.

BASIS OF PRESENTATION

District-Wide Statements:

The Statement of Net Position and the Statement of Activities present financial information about the District's governmental activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. The District does not report any business-type activities.

The Statement of Activities presents a comparison between direct expenses and program revenues for business-type activities and for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients for goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including taxes, are presented as general revenues.

Fund Financial Statements:

Financial Statements of the reporting entity are organized into funds, each of which are considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets/deferred outflows of resources, liabilities/deferred inflows of resources, net position/fund equity, revenues, and expenditures/expenses.

SCHOOL DISTRICT OF NEW BERLIN
NOTES TO THE BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2016

Funds are organized as major funds or non-major funds within the governmental statements. An emphasis is placed on major funds within the governmental categories. A fund is considered major if it is the primary operating fund of the district or meets the following criteria:

- a. Total assets/deferred outflows of resources, liabilities/deferred inflows of resources, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type, and
- b. The same element of the individual governmental fund met the 10% test is at least 5% of the corresponding total for all governmental funds combined.
- c. In addition, any other governmental fund that the District believes is particularly important to financial statement users may be reported as a major fund.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

The District reports the following major governmental funds:

General Fund – This is the District's primary operating fund. It accounts for all financial activity not required to be accounted for in another fund.

Debt Service Fund – This fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental activities.

Capital Projects Fund – This fund accounts for resources to purchase or construct capital assets.

The District reports the following nonmajor funds:

Special Revenue Trust Fund – This fund accounts for donation and gifts from private parties that are used for district operations.

Food Service Fund – The Food Service Funds accounts for financial transactions related to operation of the National School Lunch Program.

Community Service Fund - This fund accounts for programs and services available to the community.

The District accounts for assets held as an agent for various student and parent organizations in an agency fund.

Measurement Focus and Basis of Accounting

The District-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual

SCHOOL DISTRICT OF NEW BERLIN
NOTES TO THE BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2016

basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financial sources.

Under the terms of grant agreements, the District may fund certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Therefore, when program expenses are incurred, both restricted and unrestricted net positions may be available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, followed by general revenues.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

Budgetary Control

Budgetary information is derived from the annual operating budget and is presented using the same basis of accounting for each fund as described in measurement focus and basis of accounting. Operating budgets are adopted each fiscal year for all governmental funds in accordance with Section 65.90 of the Wisconsin Statutes. The legally adopted budget and budgetary expenditure control is exercised at the function level in the General Fund and at the fund level for all other funds. Reported budget amounts are as originally adopted or as amended by School Board resolution. Appropriations lapse at year end unless specifically carried over.

Cash and Investments

The District's cash and cash equivalents consists of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from date of acquisition. All funds share common (pooled) checking and investment accounts unless regulations require separate investment accounts.

State statutes permit the District to invest available cash balances, other than debt service funds, in time deposits of authorized depositories, U.S. Treasury obligations, U.S. Agency issues, high-grade commercial paper, and the local government pooled-investment fund administered by the state investment board. Available balances in the debt service fund may be invested in municipal obligations, obligations of the United States and the local government pooled-investment fund.

SCHOOL DISTRICT OF NEW BERLIN
NOTES TO THE BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2016

All investments are stated at fair value. Determination of fair value for investments is based on quoted market prices.

Property Tax Levy

Under Wisconsin law, personal property taxes and first installment real estate taxes are collected by city, town, and village treasurers or clerks who then make proportional settlement with the school district and county treasurer for those taxes collected on their behalf. The county treasurer, who then makes settlement with the city, town, village and school districts before retaining any for county purposes, collects second installment real estate taxes and delinquent taxes.

The District's property taxes are levied on or around October 31st on the equalized property valuation certified by the Department of Revenue. As permitted by a collecting municipality's ordinance, taxes may be paid in full or two or more installments with the first installment payable the subsequent January 31st, and a final payment no later than the following July 31st. The District is paid by the collecting municipality its proportionate share of tax collections received through the last day of the preceding month on or before January 15th, and by the 20th of each subsequent month thereafter. On or before August 20th, the County Treasurer makes full settlement to the District for any remaining balance. The County assumes all responsibility for delinquent real property taxes.

Property taxes are recognized as revenue in the period for which the taxes are levied. All property taxes are considered due on January 1st, when an enforceable lien is assessed against the property and the taxpayer is liable for the taxes. All taxes are collected within 60 days of June 30th and are available to pay current liabilities.

State and federal general and categorical aids and other entitlements are recognized as revenue in the period the District is entitled to the resources and the amounts are available. Revenue in expenditure-driven programs are recognized as revenue when the qualifying expenditures have been incurred and the amounts are available. Amounts owed to the District which are not paid in the current reporting period are recorded as receivables. Amounts received in advance of meeting time requirements are recorded as deferred inflows.

Revenue susceptible to accrual include property taxes, miscellaneous taxes, public charges for services, and investment income. Other general revenues are recognized as revenue when received in cash or when measurable and available

Charges for services provided to other educational agencies and private parties are recognized as revenue when services are provided. Charges for special educational services are not reduced by anticipated state special education aid entitlements.

Accounts Receivable

All account receivables are shown at gross amounts with uncollectible amounts recognized under the direct write-off method. No allowance for uncollectible accounts has been provided since such allowance would not be material.

SCHOOL DISTRICT OF NEW BERLIN
NOTES TO THE BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2016

Inventories and Prepaid Items

Inventories are valued at cost using the first-in/first-out (FIFO) method. The costs of governmental fund type inventories are recorded as expenditures when consumed rather than when purchased. The district does not carry inventories or a material value. Prepaid items represent payments made by the District for which benefits will not be received prior to July 1st.

Due to/Due from other funds

Amounts reported on the governmental funds Balance Sheet for due to and due from other funds represent amounts due between different funds. Eliminations have been made for amounts due to and due from within the governmental activity fund type in preparing the Statement of Net Position.

Capital Assets

Capital assets are reported at actual costs or estimated historical costs. The District uses a minimum capitalization limit of \$5,000. Donated assets are reported at estimated fair market value at the time received.

Long-term Obligations

All long-term debt to be repaid from governmental resources is reported as liabilities in the district-wide statements. The long-term debt consists primarily of bonds and notes payable and capital leases.

Long-term debt for governmental funds is not reported as a liability in the fund financial statements. The debt proceeds are reported as revenue and payment of principal and interest are reported as expenditures.

In governmental funds, debt issuance premiums received are recognized in the current period. For the district-wide financial statements, these amounts are amortized over the life of the debt issue.

COMPENSATED ABSENCES AND OTHER EMPLOYEE BENEFITS

Vacation

The District's policy allows employees to earn varying amounts of vacation pay for each year depending on the total number of years employed. Accrued vacation not used during the fiscal year is recorded as a compensated absence liability when such vacation is approved for carryover.

Sick Pay

The District's policy does not allow accumulated sick pay benefits to vest. Unused accumulated employee sick pay benefits are forfeited upon retirement or termination of employment. Benefits are recorded as expenditure in the year used.

Postemployment Benefits

Teachers and certain administrative, clerical, and support personnel may be entitled to postemployment retirement benefits for employees who have provided specified minimum years of service to the District. Under the early retirement options, the District is liable at June 30 for varying amounts of health benefits (see Note 3).

SCHOOL DISTRICT OF NEW BERLIN
NOTES TO THE BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2016

Pensions

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Wisconsin Retirement System (WRS) and additions to/deductions from WRS' fiduciary net position have been determined on the same basis as they are reported by WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Accounting Changes

The WRS adopted GASB Statement No. 82, Pension Issues, an amendment of GASB No. 67, No. 68, and No. 73 during the year ended December 31, 2015. Statement no. 82 addresses the presentation of payroll-related measures in the Required Supplementary Information, the selection of assumptions used in determining the total pension liability and related measures, and the classification of employer-paid member contributions. As a result of this adoption a prior period adjustment to net position in the amount of \$1,194 was made.

Deferred Outflows/Inflows of Resources

In addition, to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources which represents a consumption of net position that applies to a future period(s) and is not recognized as an outflow of resources (expense/expenditures) until then. In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources, representing an acquisition of net position that applies to a future period and is not recognized as an inflow of resources (revenue) until that time.

EQUITY CLASSIFICATIONS

District-Wide Statements

Equity is classified as Net position and displayed in three components:

- a. Net investment in capital assets - Consists of capital assets including restricted capital assets, net or accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds are not included in the calculation of invested capital assets, net of related debt.
- b. Restricted - Consists of net position with constraints placed on use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or 2) law through constitutional provisions or enabling legislation.
- c. Unrestricted - All other net position that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

It is the practice of the District to spend restricted amounts first followed by unrestricted amounts when expenditures are incurred for purposes for which amounts in any of the net position classifications could be used.

SCHOOL DISTRICT OF NEW BERLIN
NOTES TO THE BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2016

Fund Statements

Governmental fund equity is classified as fund balance in the following categories:

- a. Nonspendable - Amounts that cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.
- b. Restricted - Amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.
- c. Committed - Amounts that can be used only for the specific purposes determined by a formal action (resolution) of the School Board, the District's highest level of decision-making authority.
- d. Assigned - Amounts that are intended to be used for a particular purpose expressed by the School Board of other authorized committee or individual.
- e. Unassigned - All amounts not included in other spendable classifications.

It is the practice of the District to spend restricted amounts before unrestricted, and committed amounts first followed by assigned then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the fund balance classifications could be used.

The District's policy is to strive to maintain a minimum general fund balance of at least 10% of the subsequent year's general fund expenditures.

Note 2 - Cash and Investments

Deposits in each local and area bank are insured by the FDIC in the amount of \$250,000 per depositor at each financial institution. Bank accounts and the local government investment pool are also insured by the state Deposit Guarantee Fund in the amount of \$400,000. However, due to the relatively small size of the Guarantee Fund in relationship to the total deposits covered and other legal implications, recovery of material principal losses may not be significant to individual organizations.

This coverage has not been considered. At June 30, 2016, the District had no uninsured deposits. Bank deposits are subject to *custodial credit risk*. *Custodial credit risk* for deposits is the risk that in the event of a bank failure, the District's deposits may not be returned.

Fluctuating cash flows during the year due to tax collection, receipt of state aid and/or proceeds from borrowing may have resulted in temporary balances exceeding insured amounts by substantially higher amounts than reported at the balance sheet date.

Investment of District funds is restricted by state statutes. Available deposits and investments are limited to:

1. Time deposits in any credit union, bank, savings bank, trust company or savings and loan association maturing in three years or less.
2. Bonds or securities of any county, city, drainage district, technical college district, district, town, or school district of the state. Also, bonds issued by a local exposition district, a local professional baseball park district, or by the University of Wisconsin Hospitals and Clinics Authority.

**SCHOOL DISTRICT OF NEW BERLIN
NOTES TO THE BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2016**

3. Bonds or securities issued or guaranteed by the federal government.
4. The local government investment pool.
5. Any security maturing in seven years or less and having the highest or second highest rating category of a nationally recognized rating agency.
6. Securities of an open-end management investment company or investment trust, subject to various conditions and investment options.
7. Repurchase agreements with public depositories, with certain conditions.

At June 30, 2016 the school had the following investments:

<u>Investment Type</u>	<u>Valuation Measurement Method</u>	<u>Fair Value</u>	<u>Less Than 6 months</u>	<u>6 - 24 Months</u>
Wisconsin Investment Series Cooperative				
Cash Management Series	Amortized Cost	\$ 958,710	\$ 958,710	\$ -
Investment Series	Amortized Cost	5,113,630	5,113,630	-
Savings Deposit Account	Cost	3,795,420	3,795,420	-
Certificate of Deposit	Cost	3,741,390	3,741,390	-
Total Investments		<u>\$ 13,609,150</u>	<u>\$ 13,609,150</u>	<u>\$ -</u>

PMA Financial Network is the administrator for the Wisconsin Investment Series Cooperative (WISC). The investment manager for WISC is PMA Financial Network. The WISC is not registered with the Securities and Exchange Commission, but invests its funds in accordance with applicable Wisconsin statutes. The WISC values its invested funds using various fair value measurements as applicable, depending on the type of investment as shown in the table above. Measurement methods include cost, amortized cost and fair value hierarchy – level two.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments. *Credit risk* for investments is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. For investments, *interest rate risk* is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to greater risk.

SCHOOL DISTRICT OF NEW BERLIN
NOTES TO THE BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2016

Capital Assets

Capital asset balances and activity for the year ended June 30, 2016 were as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Governmental activities:				
Capital assets not being depreciated:				
Sites (land)	\$ 1,390,299	\$ -	\$ (39,998)	\$ 1,350,301

SCHOOL DISTRICT OF NEW BERLIN
NOTES TO THE BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2016

The legal debt limit and margin of indebtedness is set at 10% of equalized value by Section 67.06(1)(b), Wisconsin statutes. The margin of indebtedness at June 30, 2016 is:

Equalized value certified by Wisconsin Dept. of Revenue for 2015:	\$ 4,428,088,120
Margin of indebtedness at 10%	442,808,812
Deduct long-term debt applicable to debt margin	54,135,000
Margin of indebtedness	\$ 388,673,812

Aggregate cash flow requirements for retirement of long-term principal and interest on bonds as of June 30, 2016 is as follows:

Year ended June 30	Principal	Interest	Total
2017	\$ 4,085,000	\$ 1,664,322	\$ 5,749,322
2018	4,195,000	1,549,459	5,744,459
2019	4,295,000	1,381,056	5,676,056
2020	4,380,000	1,361,321	5,741,321
2021	4,480,000	1,249,484	5,729,484
2022-2026	21,410,000	4,486,620	25,896,620
2027-2031	11,290,000	760,281	12,050,281
Totals	\$ 54,135,000	\$ 12,452,543	\$ 66,587,543

Capital Leases

The District acquired computer equipment through lease / purchase agreements. The gross cost of the equipment under the capital leases was \$453,998 which is included in capital assets.

The future remaining lease obligations and the net present value on these minimum lease payments as of June 30, 2016 are:

Year Ended June 30	Amount
2017	\$ 151,333
2018	151,333
	302,666
Less amount representing interest	-
Net outstanding lease principal	\$ 302,666

NOTES TO THE BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2016**

Short-term Debt Activity

This District issues short-term debt for working capital and operational cash flow needs. Short-term debt activity for the year ended June 30, 2016 was:

	Balance June 30, 2015	Increase	Decrease	Balance June 30, 2016
Tax and revenue anticipation notes	\$ -	\$ 1,800,000	\$ 1,800,000	\$ -

Wisconsin Retirement System

Plan description. The WRS is a cost-sharing multiple-employer defined benefit pension plan. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin, local government and other public employees. All employees, initially employed by a participating WRS employer on or after July 1, 2011, and expected to work at least 1200 hours a year (880 hours for teachers and school district educational support employees) and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS.

ETF issues a standalone Comprehensive Annual Financial Report (CAFR), which can be found at <http://etf.wi.gov/publications/cafr.htm>.

Vesting. For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998, and prior to July 1, 2011, are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011, must have five years of creditable service to be vested.

Benefits provided. Employees who retire at or after age 65 are entitled to receive an unreduced retirement benefit. The factors influencing the benefit are: (1) final average earnings, (2) years of creditable service, and (3) a formula factor.

Final average earnings is the average of the participant's three highest years' earnings. Creditable service is the creditable current and prior service expressed in years or decimal equivalents of partial years for which a participant receives earnings and makes contributions as required. The formula factor is a standard percentage based on employment category.

Employees may retire at age 55 and receive reduced benefits. Employees terminating covered employment before becoming eligible for a retirement benefit may withdraw their contributions and forfeit all rights to any subsequent benefits.

The WRS also provides death and disability benefits for employees.

SCHOOL DISTRICT OF NEW BERLIN
NOTES TO THE BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2016

Post-Retirement Adjustments. The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system’s consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the “floor”) set at retirement. The Core and Variable annuity adjustments granted during recent years are as follows:

Calendar Year	Core Fund Adjustments	Variable Fund Adjustments
2006	0.8	3.0
2007	3.0	10.0
2008	6.6	0.0
2009	(2.1)	(42.0)
2010	(1.3)	22.0
2011	(1.2)	11.0
2012	(7.0)	(7.0)
2013	(9.6)	9.0
2014	4.7	25.0
2015	2.9	2.0

Contributions. Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for general category employees, including teachers, and Executives and Elected Officials. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement.

During the reporting period, the WRS recognized \$1,697,315 in contributions from the employer.

Contribution rates as of June 30, 2016 are:

Employee Category	Employee	Employer
General (including teachers)	6.8%	6.8%
Executive & elected officials	7.7%	7.7%
Protective with Social Security	6.8%	9.5%
Protective without Social Security	6.8%	13.1%

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2016, the New Berlin School District had a liability of \$2,829,255 for its proportionate share of the net pension liability. The net pension asset was measured as of December 31, 2015, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of December 31, 2014 rolled forward to December 31, 2015. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The District’s proportion

**SCHOOL DISTRICT OF NEW BERLIN
NOTES TO THE BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2016**

of the net pension liability was based on the New Berlin School District's share of contributions to the pension plan relative to the contributions of all participating employers. At December 31, 2015, the District's proportion was .17%, which was the same as its proportion measured as of December 31, 2014.

For the year ended June 30, 2016, the New Berlin School District recognized pension expense of \$3,433,077.

At June 30, 2016, the New Berlin School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflow of Resources	Deferred Inflow of Resources
Differences between expected and actual experience	\$ 478,629	\$ (5,954,117)
Changes in assumptions	1,979,469	-
Net differences between projected and actual earnings on pension plan investments	11,583,775	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	92,962	(1,676)
Employer contributions subsequent to the measurement date	1,030,277	-
Totals	\$ 15,165,112	\$ (5,955,793)

The \$1,030,277 reported as deferred outflows related to pension resulting from the WRS Employer's contributions subsequent to the measurement date is recognized as a reduction of the net pension asset in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Year Ended June 30,	Deferred Outflow of Resources	Deferred Inflow of Resources
2016	\$ 3,668,316	\$ (1,441,402)
2017	3,668,316	(1,441,402)
2018	3,668,316	(1,441,402)
2019	3,668,317	(1,441,098)
2020	66,303	(190,488)

**SCHOOL DISTRICT OF NEW BERLIN
NOTES TO THE BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2016**

Actuarial assumptions. The total pension liability in the December 31, 2015, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date:	December 31, 2014
Measurement Date of Net Pension Liability (Asset)	December 31, 2015
Actuarial Cost Method:	Entry Age
Asset Valuation Method:	Fair Market Value
Long-Term Expected Rate of Return:	7.2%
Discount Rate:	7.2%
Salary Increases:	
Inflation	3.2%
Seniority/Merit	0.2% - 5.8%
Mortality:	Wisconsin 2012 Mortality Table
Post-retirement Adjustments*	2.1%

** No post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 2.1% is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate.*

Actuarial assumptions are based upon an experience study conducted in 2012 using experience from 2009 – 2011. The total pension liability for December 31, 2015 is based upon a roll-forward of the liability calculated from the December 31, 2014 actuarial valuation.

Long-term expected Return on Plan Assets. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

SCHOOL DISTRICT OF NEW BERLIN
NOTES TO THE BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2016

Retirement Funds

Asset Allocations are managed within established ranges, target percentages may differ from actual monthly allocations								

Single Discount rate. A single discount rate of 7.20% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 7.20% and a long term bond rate of 3.56%. Because of the unique structure of WRS, the 7.20% expected rate of return implies that a dividend of approximately 2.1% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**SCHOOL DISTRICT OF NEW BERLIN
NOTES TO THE BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2016**

Sensitivity of the proportionate share of the net pension liability (asset) to changes in the discount rate. The following presents the School District of New Berlin's proportionate share of the net pension liability (asset) calculated using the discount rate of 7.20 percent, as well as what the New Berlin School District's proportionate share of the net pension asset would be if it were calculated using a discount rate that is 1-percentage-point lower (6.20 percent) or 1-percentage-point higher (8.20 percent) than the current rate:

	1% Decrease to Discount Rate	Current Discount Rate	1% Increase to Discount Rate
	6.20%	7.20%	8.20%
Proportionate share of the net pension liability (asset)	\$ 19,844,441	\$ 2,829,255	\$ (10,459,910)

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in separately issued financial statements available at <http://legis.wisconsin.gov/lab/> and reference report number 15-11.

Other Postemployment Benefits

The District reports its liability for other postemployment benefits consistent with established generally accepted accounting principles and to reflect an actuarially determined liability for the present value of projected future benefits for retired and active employees on the financial statements.

Plan Description. The District operates a single-employer retiree benefit plan that provides postemployment medical insurance benefits to eligible employees and their spouses. There are 573 active and 376 retired members in the plan as of the July 1, 2014 actuarial study. Benefits and eligibility are established and amended by the governing body.

The District has \$0 of invested plan assets accumulated for payment of future benefits. The employer makes all contributions on a pay-as-you-go basis. The District paid \$1,548,402 of benefits for the year ended June 30, 2016.

Annual OPEB Cost and Net OPEB Obligation. The District's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed thirty years. The following table shows the components of the District's annual OPEB cost for the year, the amount actually paid from the plan, and changes in the District's net OPEB obligation.

**SCHOOL DISTRICT OF NEW BERLIN
NOTES TO THE BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2016**

	Government Activities
Annual required contribution	\$1,268,916
Interest on net OPEB	(92,751)
ARC Adjustment	251,772
Annual OPEB cost (expense)	1,427,937
Contributions made	(1,548,402)
Change in net OPEB obligation (asset)	(120,465)
OPEB asset at beginning of year	(1,842,348)
OPEB asset at end of year	\$(1,962,813)

The District's annual OPEB cost, the percentage of the annual OPEB cost contributed to the plan, and the net OPEB obligation (asset) for 2016 and the preceding two years was:

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed / Paid	Net OPEB Obligation (Asset)
6/30/2016	1,427,937	108%	(1,962,813)
6/30/2015	1,427,937	67%	(1,842,348)
6/30/2014	986,660	109%	(2,318,773)

Funded Status and Funding Progress. As of July 1, 2014, the most recent actuarial valuation date, the District's unfunded actuarial accrued liability (UAAL) was \$9,055,649. The annual payroll for active employees covered by the plan in the actuarial valuation was \$19,638,214 for a ratio of the UAAL to covered payroll of 46%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future, such as assumptions about future terminations, mortality, and healthcare cost trends. Actuarially determined amounts are subject to continual revision as actuarial results are compared with past experience and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effect of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

**SCHOOL DISTRICT OF NEW BERLIN
NOTES TO THE BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2016**

In the July 1, 2014 actuarial valuation, the level percentage amortization was used. The actuarial assumptions included a rate of 4.0% to discount expected liabilities to the valuation date. The healthcare trend rate varies from 2.5% to 7.0%. The trend rate for dental and vision is 5.0%. The UAAL is being amortized as a level percentage of projected payrolls. The remaining amortization period at June 30, 2015 was 10 years.

Supplemental Pension (Stipend) Plan

The District provides a stipend benefit to 2 Active Administrators hired prior to July 1, 2012 based upon a percentage of their final salary at retirement. As of June 30, 2016 the final administrators eligible for this benefit retired and the District recognized the full liability. The District has \$0 of net plan assets accumulated for payment of these future benefits. The employer will pay \$38,693.40 each year for the next 5 years to fully satisfy the obligation. For the year ended June 30, 2016 the District paid \$3,781 as a final payment for a prior obligation.

The district's annual pension cost and net pension obligation for the current year is:

Total future payments to be made	\$176,216
Contributions made on prior liability	<u>(3,781)</u>
Change in obligation (asset)	172,435
Obligation (asset) at beginning of year	<u>21,032</u>
Obligation (asset) at end of year	<u>\$193,467</u>

Vested Employee Benefits

	Beginning Balances	Additions	Reductions	Ending Balances
Paid time off	-	16,179	-	16,179
Compensatory time off	-	535	-	535
Total vested employee benefits	-	16,714	-	16,714

Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions, workers compensation; and health care of its employees. All of these risks are covered through the purchase of commercial insurance, with minimal deductibles. Settled claims have not exceeded the commercial coverages for any risk of loss during the past year.

Self-funded Insurance Program

The District provides self-funded health and dental benefits for its employees. An administrator is responsible for the approval, processing and payment of claims, after which the District is billed for reimbursement. The District is also responsible for a monthly administrative fee. The Plan reports on a fiscal year ending June 30.

The Plan is registered with the Wisconsin Office of the Commissioner of Insurance as an employee welfare plan. Accounting and budgeting requirements for the Plan are established by the Wisconsin Department of Public Instruction.

**SCHOOL DISTRICT OF NEW BERLIN
NOTES TO THE BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2016**

As part of the medical care coverage of the Plan, the District purchased specific stop-loss insurance for claims in excess of \$250,000 per individual. The District does not have aggregate stop-loss coverage. The District has no stop-loss insurance for the Plan's dental coverage.

The District has recognized a liability of \$472,556, which represents estimated unreported claims that were incurred on or before June 30, 2016.

Changes for this liability amount for the years ended June 30, 2016 and 2015 were as follows:

<u>Year</u>	Balance Beginning of Year	Current Changes	Claim Payments	Balance End of Year
2016	462,105	5,500,135	5,489,684	472,556
2015	627,219	4,611,719	4,776,833	462,105

Note 4 - Governmental Activities Net Position

Governmental Activities Net Position

Governmental activities net position reported on the government wide statement of net position at June 30, 2016 includes the following:

Net investment in capital assets	
Capital assets, net of accumulated depreciation	\$ 63,548,736
Related long-term debt outstanding	<u>(32,725,948)</u>
Total net investment in capital assets	30,822,788
Restricted	21,638,781
Unrestricted	(20,669,709)
Total governmental activities net position	<u><u>\$ 31,791,860</u></u>

**SCHOOL DISTRICT OF NEW BERLIN
NOTES TO THE BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2016**

Note 5 - Governmental Fund Balances

Governmental fund balances reported on the fund financial statements at June 30, 2016 include the following:

Restricted	
Debt service fund	\$ 1,130,228
Capital projects fund	3,391,624
Food service fund	1,044,576
Community service fund	320,553
Special revenue trust fund	586,688
Total restrict fund balance	6,473,669
 Committed	
General fund - self funded insurance	732,357
 Unassigned	
General fund	8,678,459
Total governmental fund balance	\$ 15,884,485

Note 6 – Limitation on School District Revenues

Wisconsin statutes limit the amount of revenues school districts may derive from general school aids and property taxes. The annual revenue increase from these sources is limited to an allowable per member increase which is determined by the legislature.

This limitation does not apply to revenues needed for the payment of any general obligation debt service (including refinanced debt) authorized by either of the following (a) resolution of the school board or by a referendum prior to August 12, 1993 or (b) a referendum on or after August 12, 1993.

Note 7 – Operating Leases

The District leases equipment under non-cancelable operating leases under terms expiring the year ending June 30, 2020. Future scheduled minimum lease payments are:

Year Ended June 30	Amount
2017	\$ 34,556
2018	18,468
2019	14,196
2020	12,186
Total	\$ 79,406

SCHOOL DISTRICT OF NEW BERLIN
NOTES TO THE BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2016

Note 8 – Commitments and Contingent Liabilities

From time to time, the District is party to various claims and legal proceedings. Although the outcome of such matters cannot be forecasted with certainty, it is the opinion of management and the District's legal counsel that the likelihood is remote that any such claims or proceedings will have a material effect on the District's financial position or results of operations.

The District has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under terms of the grants. Management believes such disallowance, if any, would be immaterial.

Note 9 - Explanation of Certain Differences Between Governmental Fund Statements and District-Wide Statements

Due to the differences in the measurement focus and basis of accounting used on the government fund statements and district-wide statements certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items.

a. Statement of Net Position

Capital assets and other long-term assets used in governmental funds are not financial resources and, therefore, not reported in the funds.

Capital assets, net of accumulated depreciation	\$ 63,548,736
Other postemployment benefit asset	1,962,813
Deferred outflows - Wisconsin Retirement System	<u>15,165,111</u>
Total asset adjustment	<u>80,676,660</u>

SCHOOL DISTRICT OF NEW BERLIN
NOTES TO THE BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2016

Long-term liabilities applicable to District governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. All liabilities, both current and long-term, are reported in the Statement of Net Position.

Supplemental pension liability	\$ (193,467)

Refunding premium	(880,146)
Accrued interest	(456,249)
Vested employee benefits	<u>(16,714)</u>
 Total liability adjustment	 <u>(64,769,289)</u>
Total Combined Adjustment	<u><u>\$ 15,907,371</u></u>

b. Statement of Activities

Under the modified accrual basis of accounting used in the governmental funds, expenditures are recognized for transactions that are normally paid with expendable available financial resources. In the statement of activities, however, which is presented on the accrual basis, expenses and liabilities are reported when the liability is incurred. In addition, interest on long-term debt is not recognized under the modified accrual basis of accounting until due, rather than as it accrues.

Other postemployment benefits, including supplemental pension	\$ (51,969)
Pension liabilities (assets) - Wisconsin Retirement System	(1,715,398)
Vested employee benefits	<u>(16,714)</u>
	<u>(1,784,081)</u>

Capital related differences include (1) the difference between proceeds from the sale of capital assets reported on governmental fund statements and the gain or loss on the sale of assets as reported on the statement of activities and (2) the difference between recording an expenditure for the purchase of capital items in the governmental fund statements and capitalization and depreciation expense on those items as recorded in the statement of activities.

Depreciation expense	(2,445,865)
Proceeds from sale of capital assets	(295,315)
Gain (loss) on disposal of assets	255,284
Capital expenditures	<u>7,145,146</u>
	<u>4,659,250</u>

**SCHOOL DISTRICT OF NEW BERLIN
NOTES TO THE BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2016**

Long-term debt transaction differences occur because long-term debt proceeds are recorded as revenues and principal payments are recorded as expenditures in the governmental fund statements. In the statement of activities, long-term debt proceeds are recorded as a liability and principal payments are recorded as a reduction of liabilities.

Amounts borrowed	(10,448,998)
Principal payments on long-term debt	8,731,332
Amortized deferred finance premiums.	(187,921)
Accrued interest on long-term debt	10,856
	<u>(1,894,731)</u>
Total Combined Adjustment	<u>\$ 980,438</u>

Note 10 - Subsequent Events

Management has evaluated subsequent events for possible recognition or disclosure through the date the financial statements were available to be distributed February 24, 2017.

Note 11 - Change in Accounting Principle and Prior-Period Adjustment

Effective July 1, 2014, the District adopted GASB Statement No. 68 *Accounting and Financial Reporting for Pensions* and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. These statements address accounting and financial reporting for pensions provided to District employees that are administered by the Wisconsin Retirement System (WRS). The statements also require various note disclosures (Note 9) and required supplementary information. Also, the Department of Public Instruction required the District to change the way it accounted for retirement of old outstanding checks, resulting in a prior period adjustment. As a result, beginning net position has been restated as follows:

Net position as previously reported on July 1, 2015	\$35,385,628
Prior period adjustment	<u>(1,194)</u>
Net position as restated	<u>\$35,384,434</u>

Note 12 - Recently Issued Accounting Standards

The Governmental Accounting Standards Board (GASB) recently approved the following statements which were not implemented for these financial statements:

The GASB issued Statement No. 73, *Accounting and Financial Reporting for Pension and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68* in June 2015. The requirements of the related Statement are effective for financial Statement periods beginning after June 15, 2016.

SCHOOL DISTRICT OF NEW BERLIN
NOTES TO THE BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2016

The GASB issued Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension plans* in June 2015. This Statement is meant to improve the usefulness of information about postemployment benefits other than pensions, and replaces Statement No. 43 and No. 57. The requirements of the related Statement are effective for financial Statement periods beginning after June 15, 2016.

The GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* in June 2015. This Statement is meant to improve the usefulness of information about postemployment benefits other than pensions, and replaces Statement No. 45 and No. 57. The requirements of the related Statement are effective for financial Statement periods beginning after June 15, 2017.

The GASB issued Statement No. 76 *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments* in June 2015. This Statement is meant to identify – in the context of the current governmental financial reporting environment – the hierarchy of generally accepted accounting principles (GAAP). The requirements of the related Statement are effective for financial Statement periods beginning after June 15, 2015.

The GASB issued Statement No. 77 *Tax Abatement Disclosures* in August 2015. This Statement is meant to define tax abatements and identify the related disclosures that governments should provide. The requirements of the related Statement are effective for financial Statement periods beginning after December 15, 2015.

The GASB issued Statement No. 78 *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans* in December 2015. Amends the scope and applicability of Statement 68 to exclude pensions provided to employees or state or local governmental employers through a cost-sharing multiple-employer defined benefit plan under certain circumstances. The requirements of the related Statement are effective for financial Statement periods beginning after December 15, 2015.

The GASB issued Statement No. 79 *Certain External Investment Pools and Pool Participants* in December 2015. This Statement addresses accounting and financial reporting for certain external investment pools and pool participants. The requirements of the related Statement are effective for financial Statement periods beginning after December 15, 2015.

The GASB issued Statement No. 80 *Blending Requirements for Certain Component Units –an amendment of GASB Statement No. 14* in January 2016. This Statement is to improve financial reporting by clarifying the financial statement presentation requirements for certain component units. The requirements of the related Statement are effective for financial Statement periods beginning after June 15, 2016.

The GASB issued Statement No. 81 *Irrevocable Split-Interest Agreements* in March 2016. This Statement is to improve accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. The requirements of the related Statement are effective for financial Statement periods beginning after December 15, 2016.

SCHOOL DISTRICT OF NEW BERLIN
NOTES TO THE BASIC FINANCIAL STATEMENTS
For the Year Ended June 30, 2016

The GASB issued Statement No. 82 *Pension Issues – an amendment of GASB Statements No. 67, No. 68, and No. 73* in March 2016. This Statement is address certain issues that have been raised with respect to Statements No. 67, No. 68, and No. 73, relating to the presentation of payroll-related measures in required supplementary information. The requirements of the related Statement are effective for financial Statement periods beginning after June 15, 2017

The effect these standards may have on future financial statements is not determinable at this time.

See accompanying Notes to Schedules of Expenditures of Federal and State Awards.

SCHOOL DISTRICT OF NEW BERLIN
NOTES TO SCHEDULES OF EXPENDITURES OF FEDERAL AND STATE AWARDS
Year Ended June 30, 2016

Note 1 - Reporting Entity

The Schedules of Expenditures of Federal and State Awards include federal and state funds of the School District of New Berlin. The reporting entity for the District is based upon criteria established by the Governmental Accounting Standards Board.

State programs reported include only those programs required to be included by the *State Single Audit Guidelines*.

Note 2 - Basis of Presentation

The accounting records for grant programs are maintained on the modified accrual basis of accounting. Under the modified accrual basis, revenues are recorded when susceptible to accrual, i.e., both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when the liability is incurred.

The information in this schedule is presented in accordance with requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-profit Organizations and the State Single Audit Guidelines*.

Note 3 - Oversight Agencies

The District's federal oversight agency for audit is the U.S. Department of Education. The District's state cognizant agency is the Wisconsin Department of Public Instruction.

Note 4 - Eligible Costs for Special Education

Eligible costs for special education state categorical aid were \$5,874,078 for the year end June 30, 2016.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF THE FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS**

Board of Education
School District of New Berlin
New Berlin, Wisconsin

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the School District of New Berlin (the "District") as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated February 24, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR
PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE
IN ACCORDANCE WITH THE UNIFORM GUIDANCE AND THE
STATE SINGLE AUDIT GUIDELINES**

Board of Education
School District of New Berlin
New Berlin, Wisconsin

Report on Compliance for Each Major Federal and State Program

We have audited the compliance of the School District of New Berlin (the "District") with the types of compliance requirements described in the U.S. *Office of Management and Budget (OMB) Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2016. We have also audited the compliance of the District with the types of compliance requirements described in the State Single Audit Guidelines issued by the Wisconsin Department of Administration and the Wisconsin Public School District Audit Manual, issued by the Wisconsin Department of Public Instruction that are applicable to each of its major state programs for the year ended June 30, 2016. The District's major federal and state programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and the *State Single Audit Guidelines* issued by the Wisconsin Department of Administration and the *Wisconsin Public School District Audit Manual*, issued by the Wisconsin Department of Public Instruction. Those standards, the Uniform Guidance and the State Single Audit Guidelines require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program have occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination on the District's compliance with those requirements.

Opinion on Each Major Federal and State Programs

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs for the year ended June 30, 2016.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on a major federal or state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and the State Single Audit Guidelines, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and the State Single Audit Guidelines. Accordingly, this report is not suitable for any other purpose. .
