

FOR IMMEDIATE RELEASE

Glen Park Closure/Temporary Relocation of Students

NEW BERLIN, Wis., Dec 14, 2010 – Flooding from an onsite water main break at Glen Park Elementary School necessitated the closure of school today. While damage assessments and repairs are being made, the education of Glen Park students will commence at Ronald Reagan Elementary School, starting tomorrow morning, December 15, 2010. All aspects of school for our students from Glen Park will be the same, except for the location of school. Bus pickups will be at the same time, with a slight delay in return from school, as students will be transported home from the Ronald Reagan Elementary facility. At this time, we are not anticipating that Glen Park School will be reopened prior to the winter break (prior to December 21st, 2010). Families and staff will continually be informed of more specific accommodations and developments from the appropriate school personnel as it becomes available.
