

WELLNESS SCREENING PRIVACY

The primary purpose of the Wellness Screening (Health Risk Assessment) is to help school district employees identify health risks and learn how to maintain and improve their health. The District Wellness Coordinator will provide coaching and information on available resources for healthy living to employees with identified health risks.

Information collected and received through the Wellness Screening and Wellness Coaching will be retained solely by the Wellness Coordinator. The Wellness Coordinator shall maintain this employee health information, including the results of the Health Risk Assessment, in a confidential and secure manner.

The Wellness Coordinator may share an employee's health information with the employee. An employee may authorize the disclosure of his or her own health information to others.

The Wellness Coordinator shall not disclose Health Risk Assessment results with New Berlin School District officials or personnel or with any unauthorized entity or individual.
