

ACT/SAT

SCORE REMOVAL FORM

With the advent of the electronic application process, colleges are requesting that ACT scores be placed on the student transcript in order to facilitate and speed up the admission process. Students will still be required to supply an official ACT SCORE from ACT; however, colleges will be able to issue a tentative acceptance almost immediately, provided the ACT score is made part of the transcript. The majority of high schools in Wisconsin already do this. As a result, we are automatically placing the student's ACT score on our school transcript.

If you do not wish to have your ACT or SAT score on the transcript, please complete this form and return it to the Secretary in the Student Services Office as soon as possible. This request only needs to be submitted once.
