World of Design Classes Include:

GAME ON!

Board Game Design. In this class, we will dive into board game design! Our mission is to create a board game that teaches players about the wonders of ocean life. We'll design the game board, cards, and pieces, and then challenge each other to play!

WILD ANIMATION

Animation Design Let's travel into the woods! We'll design a storyboard to spread the word about protecting this cool ecosystem! We'll also make a flipbook to see how film animators connect images to create moving pictures.

MARS HABITAT

Martian Habitat Design Our mission is to design a habitat for a Martian colony. We will explore architectural design to imagine a practical home for people living on Mars. Then, we'll sculpt our designs to create our own 3-D models.

UNIVERSAL TREEHOUSE

Designing with universal accessibility We're making the rainforest our home for a year! We'll be designing a treehouse where three scientists will live and work. The mission involves making our treehouse animal-proof and universally accessible for researchers of all abilities!

COMIC BOOK HEROES

Costume fashion design. We're dressing up our very own superhero! Superheroes look their best when drawn in action poses, with faces that tell their story. We have superhero templates and fashion textiles to kick-start the ultimate comic book star!

FUTUREVILLE

Urban design. We're designing a city of the future! How will we handle the traffic flow of all those who work and live in the city? Our mission is to create a pop-up vision of a future metropolis whose citizens get around safely on foot, on wheels, and in flight!
